

VINCENT WIJAYA

FULLSTACK DEVELOPER

Pekojan, Jakarta Barat | vincentwijaya390@gmail.com | <https://vincent-portof.vercel.app/>

Full-stack Developer specializing in building scalable enterprise applications and business systems. Experienced in developing robust backend services using Laravel and Java Spring Boot, alongside modern, responsive frontends with Vue.js and React.js. Skilled in microservices architecture and API design, delivering end-to-end solutions that improve operational efficiency and support data-driven decision making.

AREA OF EXPERTISE

Microservices Architecture	Vue.js & React.js (Composition API)	Agile Development Workflow
API Design & Integration	Responsive UI Development	RESTful API Development
Database Design & Optimization	State Management	Git Version Control

KEY ACHIEVEMENTS

- Successfully contributed to the development and implementation of an enterprise ERP system, supporting business operations and client deployments from UAT to production go-live.
- Implemented centralized SSO authentication improving internal system security and user management.
- Achieved a GPA of 3.87 with UKRIDA Unggul 100% Scholarship, demonstrating strong academic performance in Computer Science.

PROFESSIONAL EXPERIENCE

Full-stack Developer, PT ESKALINK, Jakarta Pusat **Mar 2024 - Present**

- Developed and maintained enterprise-level ERP web applications using Laravel and Vue.js.
- Designed and implemented scalable RESTful APIs to support internal business modules and third-party integrations.
- Built internal enterprise applications to support operational workflows and data management.
- Implemented Single Sign-On (SSO) authentication to centralize user access across multiple internal systems.
- Developed an API Gateway using Java Spring Boot to manage service routing, authentication, and communication between microservices.
- Designed modular backend architecture to improve system scalability and maintainability.
- Optimized database queries and backend logic, improving system performance and reducing response time.
- Built dynamic dashboards and reporting features for operational monitoring and data analysis.
- Collaborated with cross-functional teams to translate business requirements into scalable technical solutions.
- Maintained production systems, troubleshooting issues and ensuring system reliability.

Project Manager, Library Management System (Community Service Project) **Sep 2024**

- Led the development of a library management web system for SMA Pangudi Luhur.
- Designed the system workflow and application architecture.
- Created UI/UX mockups using Figma.
- Developed frontend components using AngularJS.
- Coordinated project development from planning to deployment.

Teaching Assistant (Numerical Methods), UKRIDA**Feb 2024 – Jul 2024**

- Assisted lecturers in preparing Numerical Methods course materials.
- Developed practical learning modules for MATLAB implementation.
- Supported students in understanding numerical computation concepts and algorithms.

Programming Instructor, Sekolah Sinar Kasih, Bogor**Sep 2022 – Jan 2023**

- Taught basic programming concepts using Python, HTML, and CSS.
- Introduced students to fundamental computational thinking and problem-solving.
- Taught basic mathematics to support logical reasoning skills

EDUCATION

Bachelor of Information Technology / Computer Science**2021 – 2025**

Universitas Kristen Krida Wacana

- GPA 3.87
- Ukrida Unggul Scholarship
- *Final Project: Implementation of XGBoost Model for Property Price Prediction*
- Focus Areas:
 - Data Analysis
 - Machine Learning
 - Web Application Development

LEADERSHIP & ORGANIZATIONAL EXPERIENCE

Head of Informatics Student Association (Himpunan Mahasiswa Informatika)**Mar 2023 – Feb 2024**

Universitas Kristen Krida Wacana

- Led the student organization and coordinated multiple academic and non-academic programs.
- Managed organizational activities and collaborated with faculty and university management.
- Coordinated internal teams to organize events and student development initiatives.

INKOM Coordinator, Student Press Organization**Mar 2023 – Feb 2024**

Universitas Kristen Krida Wacana

- Coordinated internal communication and publication activities within the organization.
- Assisted in managing media and information dissemination for student activities.

Head of Organizational Development Division (Himpunan Mahasiswa Informatika) **Apr 2022 – Mar 2023**

Universitas Kristen Krida Wacana

- Responsible for improving internal organizational structure and member development programs.
- Organized internal training and coordination activities for members.

ADDITIONAL INFORMATION

- **Languages:** English, Indonesian.
- **Technical Interest:** Enterprise Software Development, Microservices Architecture, Data Analytics & Machine Learning.
